TANK ALERT® XT Alarm System

Versatile, indoor or outdoor liquid level alarm system.

This alarm system monitors liquid levels in lift pump chambers, sump pump basins, holding tanks, sewage, agricultural, and other water applications.

The Tank Alert® XT indoor/outdoor alarm can serve as a high or low level alarm depending on the float switch model used.

The alarm horn sounds and the red beacon illuminates when a potentially threatening liquid level condition occurs. The horn can be silenced, but the alarm light remains on until the condition is remedied. Once the condition is cleared, the alarm will automatically reset.

A "power on" light on the switch indicates power to the alarm panel.

FEATURES

• Enclosure meets Type 3R water-tight standard.
• Automatic alarm reset, horn silence switch, and alarm test switch.
• Alarm horn sounds at 85 decibels at 10 feet (3 meters).
• Alarm system (when installed on separate circuit) operates even if pump circuit fails.
• Complete package includes standard SJE SignalMaster® control switch with 15 feet (4.57 meters) of cable (other lengths available) and mounting clamp.
• UL Listed for indoor or outdoor use.
• CSA Certified.
• Five-year limited warranty.

OPTIONS

When ordered with the alarm, the system is available with:

• alternate float switch models for high or low liquid level warning.
• auxiliary dry normally open contacts for easy attachment of remote devices.
• premounted terminal block so enclosure can also be used as a junction box for splicing pump, pump switch, and pump power. Meets NEC standard for junction boxes.
• 6 foot (1.8 meter) power cord and liquid-tight connectors.

SPECIFICATIONS

VOLTAGE: 120 VAC, 50/60 Hz
ALARM ENCLOSURE: 6.5 x 4.5 x 3.0 inch (16.51 x 11.43 x 7.62 cm), indoor-outdoor, weatherproof, thermoplastic meets Type 3R water-tight standard
ALARM HORN: 85 decibels at 10 feet (3 meters), meets Type 3R water-tight standard as installed by factory
ALARM BEACON: UL Listed, Type 4x beacon assembly
TEST/SILENCE SWITCH: certified to IP66 and IP68 standards
AUXILIARY ALARM CONTACTS (OPTIONAL): 120 VAC, 5 amps max., 50/60 Hz
PRE-MOUNTED TERMINAL BLOCK (OPTIONAL): 20 amps, 120/230 VAC
POWER CORD (OPTIONAL): 6 foot (1.8 meter) cord with 120 VAC plug
FLOAT SWITCH: SJE SignalMaster® control switch with mounting clamp
Cable: 15 feet (4.57 meters), flexible 18 gauge, 2 conductor (UL) SJOW, water-resistant (CPE)
Float: 2.74 inch diameter x 4.83 inch long (7 cm x 12.3 cm), high impact, corrosion resistant polypropylene housing for use in sewage and non-potable water up to 140°F (60°C)
TANK ALERT® XT Alarm System
Versatile indoor or outdoor liquid level alarm system.
